

Univera Care Study: Register Graphics, Inc.

A Century of Innovation

Background

Register Graphics, Inc. has been helping their customers communicate on paper effectively for nearly 150 years. As printing capabilities evolve, it's Register Graphics' mission to stay ahead of the curve and exceed expectations with innovative print and design. Register Graphics is committed to excellence for customers, employees, and the community. Their leadership team embodies this commitment through their promotion of a positive culture.

Situation

As the world of printing rapidly changes, the same can be said about health care needs by Register Graphics employees. As health care can be complex, it's important to know that someone's there to answer a simple question, quickly. Register Graphics has trusted Univera Healthcare to do just that for 16 years.

Exceeding Expectations

"Univera covers the area very well and has good prices," says Ann Biscup, Business Manager. "Whenever we need an answer we get it right away, and it's always a pleasant experience."

"Even if you have to call at the very end of the day, our account rep acts like she has all the time in the world for us! That goes for our employees, too. We know we're getting the right answers and being guided in the right direction."

"Whenever we need an answer we get it right away, and it's always a pleasant experience."

Ann Biscup
Business Manager, Register Graphics, Inc.

With exceptional rates, and people who care as much as you do, there's never been a better time to consider Univera Healthcare for your team. Compare because you care.
